The Frederick Douglass Global Fellowship is a fully funded summer study abroad program in Ireland designed for students of color, as part of CIEE’s commitment to open doors to students from underrepresented backgrounds. The program explores the impact that effective leaders have had on social justice movements and critical peace and conflict resolution efforts around the world.

It honors the legacy of Frederick Douglass, who also travelled abroad to Ireland 175 years ago, and returned transformed and inspired to agitate for positive social change. The Fellows will walk in his footsteps, and visit a few of the cities where Douglass campaigned against slavery.

**Fully Funded Summer Study Abroad Program for Students of Color**
